### Castrol Honda LCR and Pro Honda LCR Conclude Sponsorship Agreement for the 2026 MotoGP™ Season

SOLIZE PARTNERS Corporation (Headquarters: Chiyoda-ku, Tokyo; Representative Director & President: Yusuke Inoue) has concluded a sponsorship agreement with the racing teams Castrol Honda LCR and Pro Honda LCR, which compete in the MotoGP class, for the 2026 MotoGP season. This marks the second consecutive year of MotoGP sponsorship by the SOLIZE Group, following its 2025 engagement.

This season, starting from the opening round, the SOLIZE Group logo will appear on the front fenders of both machines ridden by Johann Zarco of Castrol Honda LCR and Diogo Moreira of Pro Honda LCR.

Since our founding, we have consistently driven innovation in the digitalization of manufacturing and digital engineering through the use of advanced digital technologies. We primarily provide services to development divisions in the two wheel and four wheel sectors of the automotive industry, and we have a large number of engineers with strong expertise in these fields.

This sponsorship agreement is intended mainly to enhance our outreach to stakeholders in the motorcycle industry, and we will continue to explore opportunities for technological contribution through racing activities.

### ■ About Honda LCR

Honda LCR is a racing team headquartered in Monte Carlo, Monaco. Since 2006, the team has competed in MotoGP, the premier class of motorcycle racing. Johann Zarco of France will continue to race for Castrol Honda LCR following his 2025 season, while Brazil's Diogo Moreira will make his full-season MotoGP debut as a rider for Pro Honda LCR.

### ■ Lucio Cecchinello Honda LCR Team Principal

It is an honor to continue the partnership with SOLIZE Group. We started our collaboration last year, and from the very first moment, we realized that our values and goals are perfectly aligned. We had the opportunity to visit them at their technological headquarters, and it was a pleasure, a wonderful visit during which we discovered the highest level of 3D printers, capable of creating anything from scratch. We wish to grow and continue with such high-tech partners, as our championship delivers research and development in many fields that will later be transferred to the vehicle industries. SOLIZE Group's contribution is very important to us, and we truly appreciate their support.

### ■ Johann Zarco Castrol Honda LCR Rider

I am very excited to have SOLIZE Group as a partner for another season. We had the chance to meet them in Japan a few months ago, and it was a special experience; I really enjoyed it. I saw the latest technology in 3D scanning and 3D printing, and they also gave me a small model of myself, printed live from a 3D scan. I've always loved having high-tech partners, as I'm a curious person, and getting the opportunity to discover their facilities was very interesting for me. Thanks for being on board, SOLIZE Group!

### ■ Diogo Moreira Pro Honda LCR Rider

SOLIZE Group is a great support for the team, and I am happy for that. I haven't had the chance of visiting SOLIZE Group's headquarters yet, but I look forward to it. In the meantime, I'm proud to display their brand on my bike, and I'll do my best to represent their colours during the season. I'd like to thank SOLIZE Group for their solid contribution since last year. Let's keep working hard!

### ■ Yasutoshi Kudo, President & CEO, SOLIZE Holdings Corporation

SOLIZE Group are proud to support Honda LCR in their MotoGP challenge again this year. MotoGP captivates audiences around the world through the passion and advanced technologies brought together by the people involved in motorsports. SOLIZE Group believe in the future that such passion and technology can create.

Our engineers at the SOLIZE Group work alongside customers at manufacturing sites across the globe, solving diverse challenges through the power of digital technology. Technology

itself is neither good nor bad, what matters is how we harness it and how it contributes to the future of people and society.

SOLIZE Group embraces the slogan, "Human Creativity Begins Now." SOLIZE Group firmly support the role that MotoGP will continue to play in shaping a future created jointly by technology and human creativity.

■ Yusuke Inoue, Senior Executive Officer, SOLIZE Holdings Corporation  
/ Representative Director & President, SOLIZE PARTNERS Corporation

SOLIZE Group is delighted to have renewed our sponsorship agreement with Honda LCR as they take on the challenges of MotoGP once again this season.

Johann Zarco, who continues his journey with the team in this milestone 30th-anniversary year, and Diogo Moreira, who makes his full-season MotoGP debut, inspire us with their passion and give us the courage to take our own next steps forward.

Through this sponsorship, we will continue to support Honda LCR and both riders throughout the season and cheer for their success.
